

Clinical Counseling and Social Work Internship Fair

Meet our clinical team, hear more about our programs and learn about possible job opportunities after graduation.

Northwestern Medicine is interviewing students for clinical practicums and internships in our Adult and Adolescent Behavioral Health and Chemical Dependency Programs. We have opportunities available at Northwestern Medicine facilities in St. Charles, Wheaton and Winfield.

In our programs, you will help clinicians with individual, family and group therapy. You will also have opportunities to:

- Lead psychoeducation groups
- Complete clinical and psychosocial assessments
- Develop treatment plans
- Chart daily progress notes

To be eligible for these internship programs, you must be enrolled in a counseling/psychology, social work or addiction track master's program.
